

A highly explosive video about the "creation" of the Ukrainian president

On July 11, 2023, Scott Ritter, a former US intelligence officer and UN weapons inspector, released a highly explosive video about how he thinks Volodymyr Zelensky became President of Ukraine.

Not on its own, but as a result of an unprecedented intelligence operation led by Britain's MI 6. In other words, His Majesty's agent.

What sounds unbelievable is explained by Scott Ritter in great detail. He goes back to the beginnings of the Ukrainian state, i.e. to the 1990s.

What sounds unbelievable seems anything but improbable in the light of this evidence.
