Wagner group completely controls the city of Bachmut.

The Ukrainians have not succeeded in breaking through their attack on the northern and southern flanks and thus preventing the conquest.

The Russians - having captured Bachmut - now have forces free to push further west and stabilize the northern and southern flanks.

The next targets are Chromowe and Ivanivske.

There are currently no signs that the Wanger Group is withdrawing from Bachmut - as announced by Prigoshin.

The fighting for Bachmut has lasted 8 months.
