Epstein – “Concierge of Evil” – Dangerous Questions

The masses revel in the downfall of the rich and powerful, who are drowned in a cocktail of perverse entanglements that were previously dismissed as conspiracy theories. We ask dangerous questions, because sexual perversion is not the most significant issue.

Introduction

Trump Releases Documents but Loses Control of Narrative

The Epstein Files were formally published by the United States Attorney General's Office. This was required by the Epstein Files Transparency Act, which was passed by the US Congress. President Trump signed the bill into law.

However, his subsequent behavior is contradictory. He seeks to push the matter out of the public eye. But when an American president says, “*it is time to move on,*” one should do exactly the opposite; and that is what is happening.

Trump has at least one solid reason for wanting to sweep the matter under the carpet: his wife Melania has been outed as an “[Epstein girl](#)” and rumors are circulating that she was even Epstein's ex-girlfriend – news that is unlikely to please the president. These circumstances have not yet ended the president's career, but we do not know what else might come to light – possibly facts that could catapult Trump out of office.

It is evident that nerves are frayed in the Trump administration. Last Wednesday, Attorney General Pam Bondi completely lost her temper during a tense hearing of the House Judiciary Committee, citing the Dow Jones and S&P 500 indices and announcing that this topic should be discussed, mind you, in a hearing dealing with the Epstein files.

.....

.....

As a critical observer, one must assume that Ms. Bondi, or rather those who are actually making the selection, will present the Epstein files as they see fit. The truly powerful figures behind the scenes will attempt to use these scandals, which in my opinion have not even begun yet, to eliminate their enemies and protect those who deserve to be dragged into the public eye.

Sexual Perversion, but Other Things Are More Important

We will not revel in the unspeakable things that have come to light in what has been published so far. We will leave that to those who have the time and energy to work their way through the millions of pages over the next few weeks and bring even more perverse things to light. Until recently, it was teenagers who were sexually abused, but the Epstein files contain images that suggest events that until recently were relegated to the realm of conspiracy theories: sex with toddlers,

screaming babies, even suggesting that small children were eaten in rituals (Pizza Gate), and hundreds of emails reporting on these topics with code words. These are events that are beyond the imagination of even a halfway normal person and will probably cause sleepless nights for those who, for professional or personal reasons, decide to deal with such images.

Is Epstein Alive?

In addition, stories are circulating online that Epstein is alive and living in Israel. There are photos to support this, although photos have only limited evidential value in this day and age due to AI.

It is entirely possible that Epstein could still be alive, as a prison employee, Roberto Grijalva, reported on the “day of Epstein's death” that Epstein had been wheeled out of the prison on a wheelchair during the night and transported away in a van. This was reported by Jimmy Dore in his [show](#).

Finally, it is [claimed](#) that Epstein's Fortnite account (Fortnite is a world-famous shooter game) is active and is being used from Israel.

Is Everything Being Shown? – Probably Not

It is important to note that approximately 2.7 million documents have been published so far, while 3.3 million more have not yet been released. Most of the documents contain many redacted words, senders, recipients, or entire sections. The government justifies this on the grounds of protecting the victims. However, this is a lie. Many documents containing communications about illegal activities between Epstein and third parties are redacted, including senders and recipients – here, perpetrators are being protected as “victims.”

This means that not even half of all documents have been published, and the public simply has to believe the authorities that there are actually only 6 million documents. An authority that claimed a few months ago that the video material contained only child pornography downloaded from the internet, which has been proven to be untrue, is completely untrustworthy.

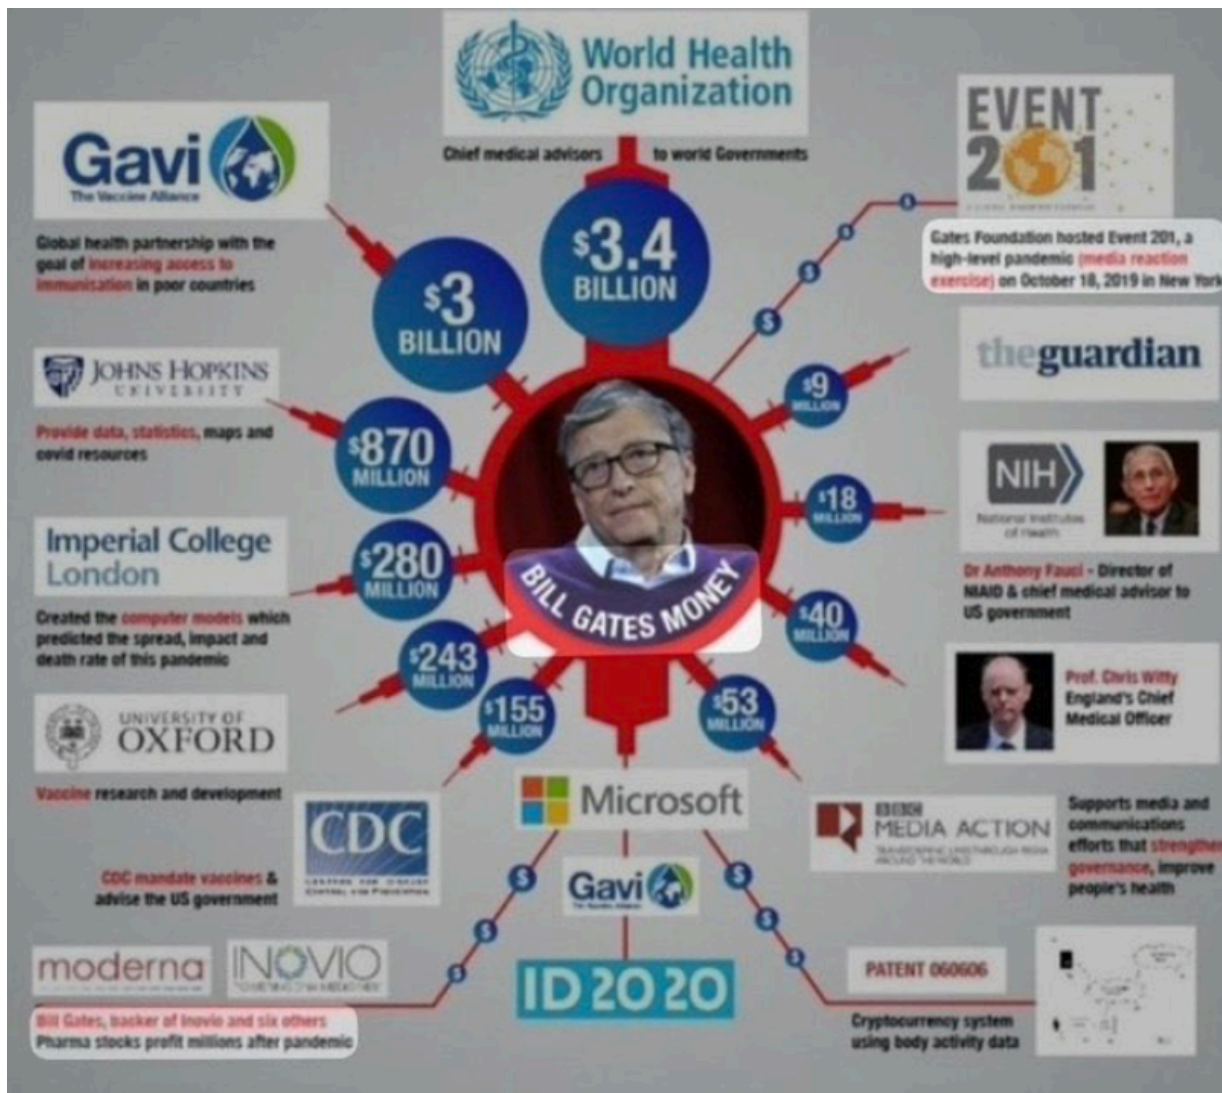

“Sexual perversion is intended to distract from geopolitical perversion.”

It is doubtful whether further documents will be published and, if so, whether these will be all of them and whether they will be published in their entirety. Nevertheless, what has been published paints a picture that allows conclusions to be drawn that until recently would have been considered impossible.

It is no coincidence that these monstrosities are now being made public—there are no coincidences in our world: sexual perversion is intended to distract from geopolitical perversion. If we disregard the sexual perversion, what remains is a picture of horror: the Collective West is being controlled by a group of psychopaths who have means at their disposal that remain hidden from the public. Evil thus truly reigns supreme. When I published the article “[Will evil prevail?](#)” in November 2025 and mentioned the “City of London” and groups – including the Rothschilds – there were skeptics who pointed out that these were old stories and that the Rothschilds, for example, no longer had any power. This now seems to have been refuted.

In the following, we will discuss a few individuals and facts, while clearly pointing out that a comprehensive assessment is impossible and will likely remain so due to the prevailing power structures. The following examples show that the theory—condescendingly referred to as “conspiracy theories” in the mainstream media—that geopolitics in the West is controlled by a group operating in secret is true.

Who Brought Down Bill Gates?

Source: Stricker TV - X

Bill Gates exercises—or rather, exercised—enormous influence on global issues through his wealth, his [Gates Foundation](#), and his personal networks, particularly in the areas of global health, poverty reduction, agriculture, and, increasingly, climate change. Gates was not an elected politician, but his billions and networks made him one of the most influential private actors in the world.

The significant influence exerted by monetary donations to media companies will not save Gates. Having previously downplayed his relationship with Epstein, Bill Gates is now facing revelations that are making him internationally *persona non grata*; the final nail in the coffin was undoubtedly hammered in by his ex-wife Melinda.

Bill Gates was one of the most influential people to be destroyed so far, but the list is getting longer. It includes people who are already finished (Prince Andrew, Sarah Ferguson, Peter Mandelson) or in danger of falling (Donald Trump, Bill Clinton, Howard Lutnick, Keir Starmer). All the names mentioned here are representative of many others.

Who will inherit Bill Gates' power? What has he done to anger the real powers behind the scenes? It can't have been his unsavory behavior. According to [Euronews](#), the Bill & Melinda Gates Foundation is responsible for more than 88 percent of the total amount donated to the WHO by philanthropic foundations. According to the [National Library of Medicine](#), Bill Gates' foundation awarded 540 grants totaling \$5.5 billion between 2000 and 2024. The WHO was not only one of the main players during Covid. The WHO Pandemic Agreement (adopted on May 20, 2025, at the 78th World Health Assembly) is the world's first specific pandemic treaty. It is an agreement that frightens skeptics who warn of another supranational organization that will restrict people's freedom and the sovereignty of countries. Switzerland (via the FOPH) emphasizes: No new powers for the WHO, full sovereignty remains intact. Germany, the EU, the US, and others have expressed similar views. The naivety—or corruption—of these politicians is almost limitless. After the publication of the Epstein Files, will these politicians reconsider to whom they transfer power? I doubt it.

The US withdrew from the WHO in January – was Gates the victim of infighting?

COVID – Conspiracy Theory or Big Business?

The Epstein Files contain correspondence between Gates and Epstein that could suggest that the Covid disaster was nothing more than a huge business venture, prepared well in advance. Of course, these claims are dismissed as conspiracy theories, as always. However, if these claims turn out to be true, the people behind them were able to position themselves financially by taking advantage of the crash of the financial markets, money printing, the vaccine bonanza, etc. According to [Cambridge University](#), Covid caused costs of up to \$82 trillion – borne by taxpayers worldwide. That is two and a half times the GDP of the US. It can be assumed that those who organized this earned trillions, not billions.

The Rothschilds are Alive and Kickin'

The Rothschilds, who invented international banking, financed both sides in wars, financed and controlled the Suez Canal, were even celebrated by poets in the 19th century for their wealth. Then, from World War II onwards, this family seemed to have lost its influence and retreated to a few private banks on the European continent. They claimed to no longer have any influence. To lend more weight to this claim, they enlisted the services of Niall Ferguson. The well-known British author, who apparently served as a paid writer for the Rothschilds, was granted “free” access to the family archives in order to compile the “facts” of the family history. In 1999 ([The House of Rothschild: 1798–1848](#)) and 2000 ([The House of Rothschild: 1849-1999](#)), Ferguson published two bulky volumes intended to confirm the Rothschilds' narrative: “Nothing to See!”

Many bought into this appealing narrative of the once most powerful family in the world, who, according to their own statements, now only concern themselves with wines, art, castles, and a few private clients. A key argument was that they had missed their chance to gain a foothold in the US. However, the Epstein Files do not support this account – new details of the relationship between Ariane de Rothschild, head of the Geneva-based banking group Edmond de Rothschild, and Epstein are coming to light almost daily. The two exchanged thousands of emails, maintained a close, friendly relationship, and in 2014 looked forward to the great business opportunities that Ukraine would bring. Under a “[Letter of Agreement](#)” contract, Rothschild paid Epstein's company Southern Trust Company \$25 million for the following service: “*STC shall continue to work with EDR on the EDR Matters as further specified and agreed to between STC and Rothschild from time to time while this Agreement remains in effect (the "Work").*”

This sounds more like a contract under which no services are provided and whose sole purpose is to provide a document for the compliance department of banks. Even the Financial Times of February 7, 2026, in “[How the house of Rothschild became entangled with Epstein](#),” reported that the relationship was extremely close—Epstein advised them on the most intimate matters—and was handsomely rewarded for doing so.

This brings to mind a great [article by Alex Krainer from November 2024](#). Alex referred to an interview given by the ex-oligarch Khodorkovsky, who now lives in London, in which he candidly revealed that Lord Jacob Rothschild had been his protector.

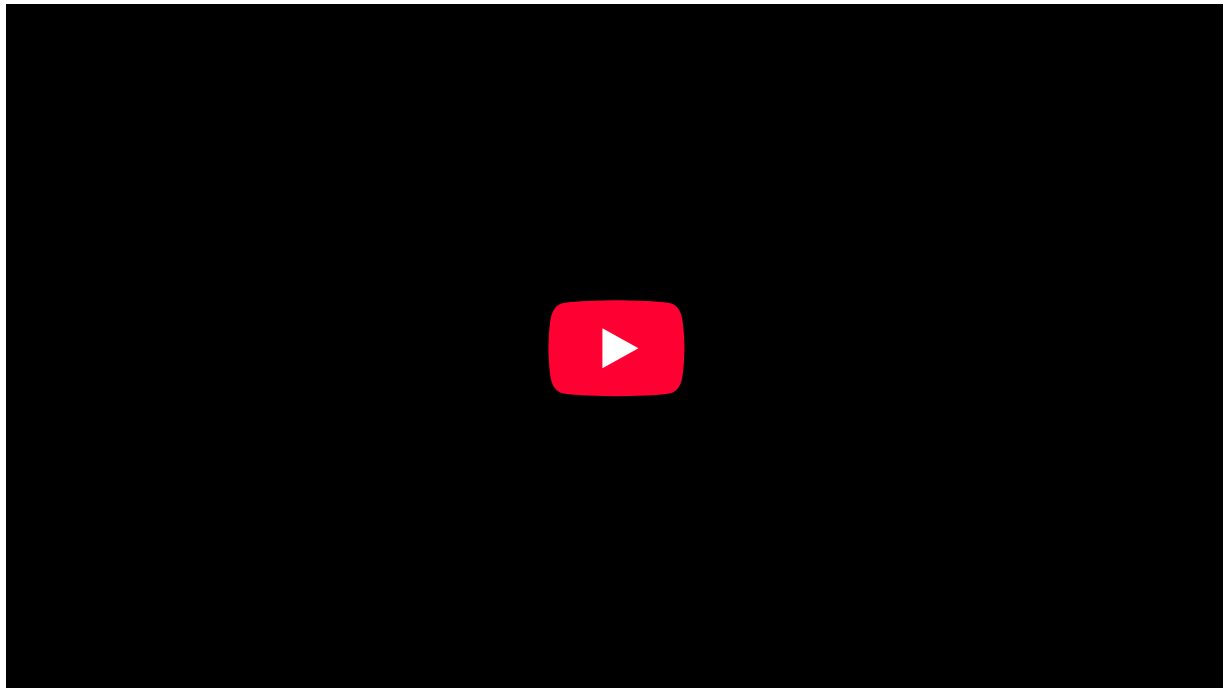

Jacob Rothschild and his friend David Rockefeller—did they talk about wine and art?

Apparently, Khodorkovsky was merely a puppet of the Rothschilds. President Putin thwarted the Rothschilds' plans when he had Rosneft buy up Yukos' assets, thereby turning it into Russia's oil giant.

The same principle of the protector and the straw man was already being used in the US 100 years ago. Krainer writes: *„When John Pierport Morgan died, everyone believed that he was the world's wealthiest man. But then it turned out that he only owned about 9% of his bank and was acting merely as the trustee of the bank's real owners who were (and perhaps still are) in the City of London.“*

It is therefore highly probable that the Rothschilds continue to exert enormous influence on world affairs and exercise their power behind the scenes, just as befits a democratic and transparent Western society.

As a footnote, which shows the current influence of the Rothschilds in Washington today is the fact that the Rothschilds were mentioned over 12'000 times in the published files and that these very files are now being deleted; so reported by Natali and Clayton Morris in their latest edition of Redacted - starting Minute 13.02.

The Banks Through Which These Transactions Are Processed

I am not surprised that the documents that have already been published contain very little financial information. Every effort will be made to keep this information secret. In this context, I would like to point out that the people behind these transactions repeatedly use large global banks for their transactions. If these are exposed, they simply switch to another banking empire; like in a relay race, the baton is passed on. The Bank of Credit and Commerce International (BCCI), which was registered in Luxembourg and had branches in 78 countries at the height of its history, was used by such groups. It went under in 1991 due to money laundering, bribery, arms trafficking, the sale of nuclear technology, smuggling, illegal immigration, the illegal purchase of real estate and banks, and the promotion of prostitution. Many of its customers then switched to Edmond Safra's banking empire. When Safra died in Monte Carlo in 1999 under very strange circumstances, HSBC took over his clients. HSBC was eventually caught laundering over \$800 million in Sinola cartel funds; apart from a fine of \$1.92 billion, there were no consequences for the management – no one went to prison. It is unknown which

bank(s) are currently handling the business of criminal groups. It is doubtful that the Epstein Files will reveal these institutions. Further information on this topic can be found at [Whitney Webb](#).

Who or What Was Epstein?

The sexually perverse will make it difficult for the masses to become aware of the extent of the conspiracies. Conspiracies that are no longer theories, but have been dragged into the public spotlight. However, it can be assumed that the public—as is usually the case—will not look at this limelight, but will revel in the unbelievable, the sexually perverse, and will not take the opportunity to see the truth, which is even more unsavory than what they are revelling in.

Epstein Was the “Concierge of Evil”

Epstein was not a criminal who simply trapped people, seduced them, and then blackmailed them—he was much more than that and much more important. He appears to have been a central figure in the so-called deep state. He used methods that take your breath away, but he had an unparalleled network of contacts and controlled and coordinated major projects of the deep state. His influence and contacts were not limited to the US. He obviously worked with the CIA, MI6, and Mossad. This is a clear indication that the group of powerful people known as the deep state or cabal operates, cooperates, and coordinates throughout the West. Epstein cooperated not only with the secret services, but with the entire political and economic elite of many – or all? – Western countries. Epstein was the “concierge of evil.”

His role as concierge of evil was essential to the functioning of the deep state. Sexual perversion served as a means to keep those involved happy—and to blackmail them if they wanted to break away. Epstein was handsomely rewarded for his services. The claim by wealthy “victims” that Epstein took advantage of them seems implausible given the facts available today.

Was Epstein the Only One?

Certainly not. Such systems are organized redundantly, or a placeholder who was already in place took over Epstein's role. In addition to such an Epstein figure, who obviously “looked after” the top elites, there are other figures who “look after,”

pamper, or blackmail the media, for example, because it takes a lot of coordination and management to completely synchronize the media in the West on issues such as Covid, the war in Ukraine, Gaza, or Iran. The extent of this “supervision” can be seen in the reporting of virtually all media outlets in the Collective West. For me as a blogger, the exposure of the media Epstein remains a dream for now – but patience brings roses.

Conclusion

There can be no conclusion here, because we must be aware that most of the facts that have come to light to date did not come to light by chance. Conclusions could then be drawn if all documents were published unedited. However, that will not happen. Nevertheless, a brief glance through the keyhole provides many insights: much of what was dismissed as conspiracy theories until recently can now be considered proven. In the future, it will be more difficult for the Western media to simply dismiss uncovered or suspected conspiracies by nebulous masterminds as conspiracy theories. Perhaps the media will remember to follow up on suspicions and investigate them instead of ridiculing them. However, if you look at the leading Western media outlets reporting on the Epstein files, you will soon notice that they focus on the sexually perverse and only report on those who have already fallen and are irretrievably entangled. Regrettably.

And then, of course, one important question remains unanswered: Who suddenly pulled these files out of thin air, and to what end? Cui bono? – We'll stay on top of it!
