Introduction

The [InputEvent](#), which took place on March 22, 2024 in Zurich-Kloten, was under the title "Russia/Switzerland/Neutrality". The speakers were Russian Ambassador Sergei V. Garmonin ("Swiss neutrality"), top Swiss diplomat Jean-Daniel Ruch ("The position of Swiss diplomacy") and Peter Hanseler ("The view of the Russian-Swiss").

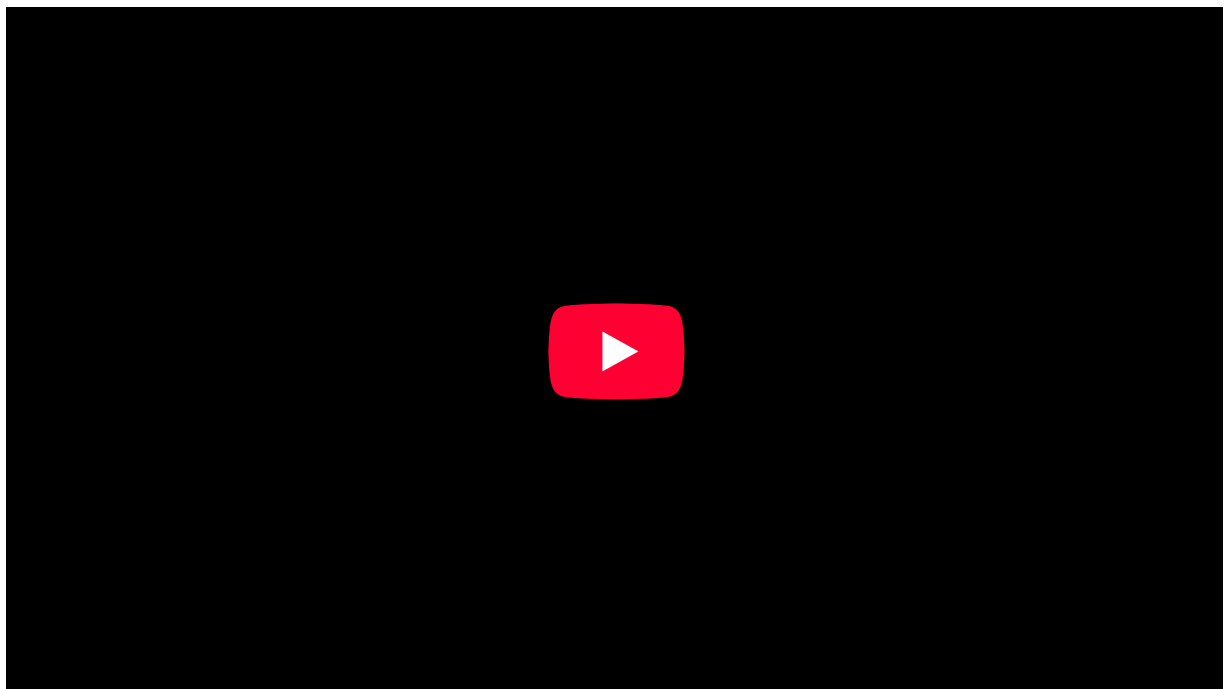

It was a challenge for me to give a brief outline of the understanding of Russia, the background to the Ukraine conflict and BRICS as a tectonic shift in geopolitics in the limited time available to me.

We will reproduce my short presentation here.

As always, Maria Avilova has subtitled this presentation for our Russian and English-speaking readers.

We are now in the process of subtitling the Russian ambassador's speech as well.
